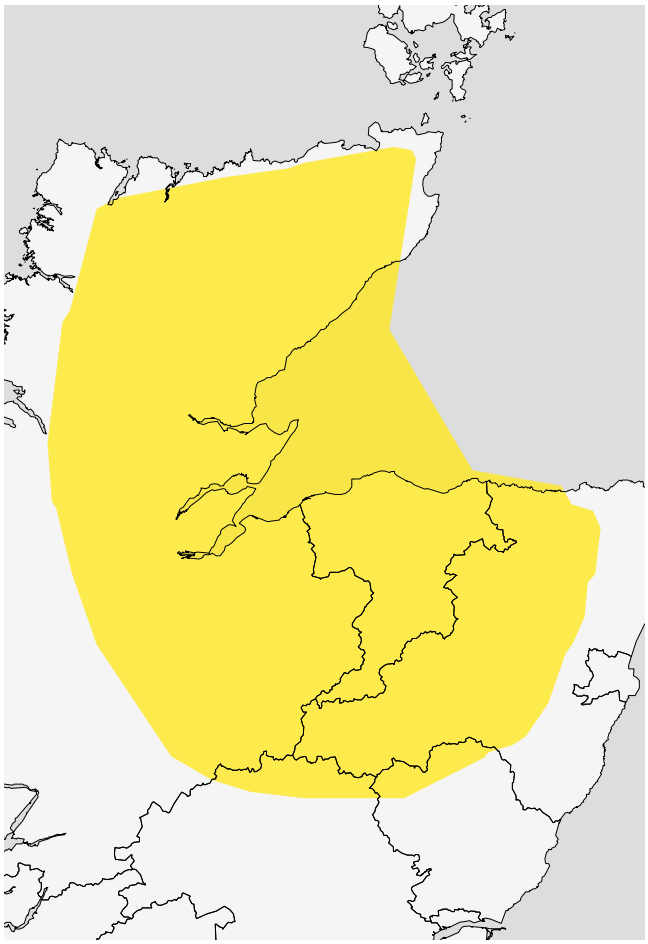
Yellow warning
**Snow**

Between
**06:00 Tue 5 Apr 2022** and
**22:00 Tue 5 Apr 2022**



## Snow may cause some disruption across parts of Scotland through Tuesday before clearing northwards.

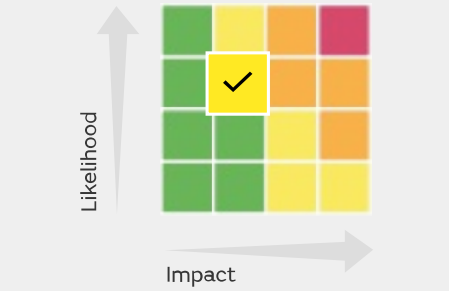
### What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services

### Further details

Persistent rain over northern Scotland will increasingly turn to snow over high ground during Tuesday morning, then to lower levels by the afternoon.

This is likely to bring some temporary accumulations in places to sea-level, with 2-5cm above 100-200m in places and perhaps 10cm above 300m. There is some uncertainty by Tuesday night but snow is likely to clear northwards and turn back to rain leading to some snow melt.



Medium likelihood of low impacts

**Issued at 05:19 Tue 5 Apr, 2022**
